Bootstrap > Forms　　　　　　　　　　　　　　　　　　　　　　　　　　▼

Code Challenge:

Make a form with six fields: name, e-mail, password, contact, city and address and a submit button.
<u>Note</u>: Do not test your code here. Instead use netbeans. The bootstrap code output may not be legible in the small window here.

Your Code ()　│　Solution ()

```
8      <script src="https://maxcdn.bootstrapcdn.com/bootstrap/3.3.7/js/bootstrap.min.js">
</script>
9          <meta name="viewport" content="width=device-width, initial-scale=1">
1          <title>Forms in Bootstrap</title>
0      </head>
1      <body>
2          <div class="container-fluid">
3              <div class="row">
4                      <div class="col-lg-4 col-lg-offset-4 col-md-6 col-md-offset-3">
5                          <h2>SIGN UP</h2>
6                          <form>
7                              <div class="form-group">
8                                  <input class="form-control" placeholder="Name" name="name"
9  required = "true">
2                              </div>
0                              <div class="form-group">
2                                  <input type="email" class="form-control"
2  placeholder="Email"  name="e-mail" required = "true">
2                              </div>
2                              <div class="form-group">
2                                  <input type="password" class="form-control"
5  placeholder="Password" name="password" required = "true">
2                              </div>
```
